Resolution #1

Whereas prairie dogs are a major problem on both state land and privately owned land, and whereas the expense to control prairie dogs has been absorbed by the land owner or the lessee in the case of state lease land and,

Whereas the cost of control is extremely expensive to the lessee and, whereas the control is vital to the cattle industry,

Therefore be it resolved that the Bent-Prowers Cattle and Horse Growers Association encourage the Colorado Cattlemans Association to support efforts to have the Colorado State Land Board be responsible for the expense involved in controlling prairie dogs on state land at the same time as neighboring land owners are pursuing control.

Resolution 2

Whereas House Bill No. 1110 attempts to develop an Undesirable Plant Management Act and, whereas the cattle industry has opposed further government intervention and,

Whereas the development of a state advisory board, management districts, and district boards can be costly and,

Whereas the cost of hiring a district inspector and various deputies for each district would be burdensome on an already struggling agricultural economy and,

Whereas certain control methods could involve loss of use of land vital to the cattle industry for extended periods of time,

Therefore be it resolved that the Bent-Prowers Cattle and Horse Growers Association go on record as opposing House Bill No. 1110.

Resolution #3

Whereas sales tax is levied on many supplies used by agriculture and. whereas this tax is unfair to Colorado businesses as other states are not required to collect sales tax on agriculture supplies and.

Whereas this tax is not in force in some of Colorado's neighboring states, many of the outlying producers go out of state to purchase supplies which is detrimental to local economies,

Therefore be it resolved that the Bent-Prowers Cattle and Horse Growers Association urge the Colorado Cattlemen's Association to persuade the Colorado State Legislature

Resolution #4

Whereas prairie dogs have become an ever increasing problem to livestock producers in Southeastern Colorado. and whereas prairie dogs are extremely costly and,

Whereas the Environmental Protection Agency has banned the use of most controls known to be effective in controlling prairie dogs,

Therefore be it resolved that the Bent-Prowers Cattle and Horse Growers Association urges the Colorado Cattlemen's Association to persuade the Environmental Protection Agency to release those controls for prairie dogs which have proved to be effective. and to allow them to be used in strengths which provide efficient control

Resolution #5

Whereas the Colorado brand law is necessary to the ranching industry and, whereas the brand law has proved effective against rustling and,

Whereas the cost of executing the Colorado brand law is ever increasing,

Therefore be it resolved that the Bent-Prowers Cattle and Horse Growers Association support the Colorado Cattlemen's Association Brand and Theft committees recommendation to leave the current brand law and raise the caps on brand inspection to \$.40 per head and a \$7.50 service charge.

Resolution #6

Be it resolved that the Bent-Prowers Cattle and Horse Growers Association take this opportunity to offer sincere thanks and appreciation to the companies, media, and individuals who have made us welcome here in Las Animas and so generously contributed to the success of this 120th annual meeting.

Resolution 7

Since our last annual meeting, many of our beloved and valued members passed to their reward. We who remain, have enjoyed and benefitted from their association, and we are saddened by their absence.

We share in the sorrow of their families and loved ones and to their memory, we pledge to support the principles which these great men and women, who have gone on before us, have firmly instilled in our Association.

We, the members of the Bent-Prowers Cattle and Horse Growers Association, now stand to take a moment to memorialize our deceased members.

Resolution #8

Whereas the percentage change in the tax structure in the State of Colorado imposes more cost to the owners of agricultural land for the support of all local governmental entities and.

Whereas the only immediate relief to agricultural landowners would be to change the capitalization rate for landowners.

Therefore be it resolved that the Bent-Frowers Cattle and Horse Growers Association encourage the Colorado Cattlemen's Association to work with the 1990 General Assembly to raise the capitalization rate from 13% to 15%.
